Workforce Administration Solution

Introduction:

Workforce Administration Solution is a software application or platform designed to streamline and automate various aspects of employee's working on projects and Asset Assignment processes within an organization. It serves as a centralized system for managing employee data, number of projects an employee is working on, tracking employee performance, and keeping record for the assets which they are assigned to

Workforce Administration Solution

Milestone - 1

Salesforce

Types of Salesforce Editions:

1. Essentials

Designed for small businesses getting started with CRM to boost sales or service productivity. It includes a setup assistant and administration tools to customize your deployment as you grow.

2. Professional

Designed for businesses requiring full-featured CRM functionality. It includes straightforward and easy-to-use customization, integration, and administration tools to facilitate any small to midsize deployment.

3. Enterprise

Meets the needs of large and complex businesses. It gives you advanced customization and administration tools, in addition to all the functionality available in Professional Edition, that can support large-scale deployments. Enterprise Edition also includes access to Salesforce APIs, so you can easily integrate with back-office systems.

4. Unlimited

Maximizes your success and extends it across the entire enterprise through the Lightning Platform. It gives you new levels of platform flexibility for managing and sharing all your information on demand. Includes all Enterprise Edition functionality, Premier Support, full mobile access, unlimited custom apps, increased storage limits, and other features.

5. Developer

Provides access to the Lightning Platform and APIs. It lets developers extend Salesforce, integrate with other applications, and develop new tools and applications.

Developer Edition also provides access to many of the features available in Enterprise Edition

Let's begin with creating our Salesforce Developer Account

Workforce Administration Solution

Activity 1: Creating Developer Account

Creating a developer org in salesforce.

1. Go to <https://developer.salesforce.com/signup>
2. On the sign up form, enter the following details :

Build enterprise-quality apps fast to bring your ideas to life

- Build apps fast with drag and drop tools
- Customize your data model with clicks
- Go further with Apex code
- Integrate with anything using powerful APIs
- Stay protected with enterprise-grade security
- Customize UI with clicks or any leading-edge web framework

Sign up for your Salesforce Developer Edition
A full-featured copy of the Platform, for free

Complete the form to start your free trial. Our team will be in touch to help you make the most of your trial.

First Name*
Your first name

Last Name*
Your last name

Email*
Your email address

Role*
Your job role

Company*
Company Name

- 1) First name & Last name
- 2) Email
- 3) Role : Developer
- 4) Company : College Name
- 5) Country : India
- 6) Postal Code : pin code
- 7) Username : should be a combination of your name and company
- 8) Click on Sign me up.

This need not be an actual email id, you can give anything in the format :
username@organization.com

Click on sign me up after filling these.

Workforce Administration Solution

Activity 2: Account Activation

1. Go to the inbox of the email that you used while signing up. Click on the verify account to activate your account. The email may take 5-10mins.

2. Click on Verify Account
3. Give a password and answer a security question and click on change password.

Workforce Administration Solution

Change Your Password

Enter a new password for lead@sb.com.
Make sure to include at least:

- 8 characters
- 1 letter
- 1 number

* New Password

* Confirm New Password

Security Question

▼ In what city were you born?

* Answer

asdfghjkl

Change Password

4. Then you will redirect to your salesforce setup page.

Workforce Administration Solution

Milestone - 2

Object

Activity 1: Create Employee Object

The purpose of creating an Employee custom object is to keep track the employee's activities and their individual and as well as team progress.

To create an object:

1. From the setup page --> Click on Object Manager --> Click on Create --> Click on Custom Object.

1) Enter the label name: Employee

2) Plural label name: Employees

3) Enter Record Name Label and Format

1.Record Name : Employee ID

Workforce Administration Solution

2.Data Type : Auto Number

3.Display Format : EMS-{0000}

4.Starting Number : 1

Enter Record Name Label and Format

The Record Name appears in page layouts, key lists, related lists, lookups, and search results. For example, the Record Name for Account is "Record Name field is always called "Name" when referenced via the API."

Record Name: Example: Account Name

Data Type: Example: A-{0000} [What Is This?](#)

Display Format: Example: A-{0000} [What Is This?](#)

Starting Number:

2. Click on Allow reports,
3. Allow search --> Save.

Optional Features

☒ Allow Reports [What Is This?](#)

☐ Allow Activities

☐ Track Field History

☐ Allow in Chatter Groups

☐ Enable Licensing [What Is This?](#)

Object Classification

When these settings are enabled, this object is classified as an Enterprise Application object. When these settings are disabled, this object is classified as a Light Application object. [Learn more.](#)

☒ Allow Sharing

☒ Allow Bulk API Access

☒ Allow Streaming API Access

Deployment Status [What Is This?](#)

☐ In Development

☒ Deployed

Search Status

When this setting is enabled, your users can find records of this object type when they search. [Learn more.](#)

☒ Allow Search [What Is This?](#)

Object Creation Options (Available only when custom object is first created)

☐ Add Notes and Attachments related list to default page layout

☐ Launch New Custom Tab Wizard after saving this custom object

Activity 2: Create Project Object

The purpose of creating a project object is to have detailed information about the on-going and completed projects in the organization.

To create an object:

1. From the setup page --> Click on Object Manager --> Click on Create --> Click on Custom Object.

Workforce Administration Solution

- 1) Enter the label name--> Project
- 2) Plural label name--> Projects
- 3) Enter Record Name Label and Format

1. Record Name : Project ID
2. Data Type : Auto Number
3. Display Format : Proj-{0000}
4. Starting Number : 1

2. Click on Allow reports,

3. Allow search --> Save.

Activity 3: Create 3 more objects with label names as ProjectTask, Asset, Asset Service.

Note: use "Text" as a data type and label Record Name as "Project Task Name".

To create an object:

1. From the setup page --> Click on Object Manager --> Click on Create --> Click on Custom Object.

- 1) Enter the label name: Project Task
- 2) Plural label name: Project Tasks
- 3) Enter Record Name Label and Format
 - 1.Record Name : Project Task Name
 - 2.Data Type : Text
 - 3.Display Format : EMS-{0000}
 - 4.Starting Number : 1

Note: use "Text" as a data type and label Record Name as "Asset name".

1. From the setup page --> Click on Object Manager --> Click on Create --> Click on Custom Object.

- 1) Enter the label name: Asset
- 2) Plural label name: Assets

Workforce Administration Solution

3) Enter Record Name Label and Format

1. Record Name : Asset Name
2. Data Type : Text
3. Display Format : EMS-{0000}
4. Starting Number : 1

Note: use "Text" as a data type and label Record Name as "Asset Service Name".

To create an object:

1. From the setup page --> Click on Object Manager --> Click on Create --> Click on Custom Object.

- 1) Enter the label name: Asset Service
- 2) Plural label name: Asset Services

3) Enter Record Name Label and Format

1. Record Name : Asset Service Name
2. Data Type : Text
3. Display Format : EMS-{0000}
4. Starting Number : 1

Workforce Administration Solution

Milestone - 3 Tabs

Activity 1: Creating a Custom Tab (Employee)

To create a Tab:(Employee)

1. Go to setup page --> type Tabs in Quick Find bar --> click on tabs --> New (under custom object tab)

2. Select Object(Employee) --> Select any tab style --> Next (Add to profiles page) keep it as default --> Next (Add to Custom App) keep it as default --> Save.

Workforce Administration Solution

Choose the custom object for this new custom tab. Fill in other details.

Select an existing custom object or create a new custom object now.

Object: --None--
Tab Style: --None--

(Optional) Choose a Home Page Custom Link
Splash Page Custom Link

Enter a short description.
Description

Next Cancel

Activity 2: Creating a Custom Tab (Project)

1. Go to setup page --> type Tabs in Quick Find bar --> click on tabs --> New (under custom object tab)
2. Select Object(Project) --> Select the tab style ?--> Next (Add to profiles page) keep it as default --> Next (Add to Custom App) keep it as default --> Save.

Activity 3: Creating tabs for remaining objects

Now create tabs for Project Task, Asset, Asset Service objects.

To create a Tab:(Project Task)

1. Go to setup page --> type Tabs in Quick Find bar --> click on tabs --> New (under custom object tab)
2. Select Object(Project Task) --> Select the tab style ?--> Next (Add to profiles page) keep it as default --> Next (Add to Custom App) keep it as default --> Save.

To create a Tab:(Asset)

1. Go to setup page --> type Tabs in Quick Find bar --> click on tabs --> New (under custom object tab)
2. Select Object(Asset) --> Select the tab style ?--> Next (Add to profiles page) keep it as default --> Next (Add to Custom App) keep it as default --> Save.

Workforce Administration Solution

To create a Tab:(Asset Service)

1. Go to setup page --> type Tabs in Quick Find bar --> click on tabs --> New (under custom object tab)
2. 2. Select Object(Asset Service) --> Select the tab style ?--> Next (Add to profiles page) keep it as default --> Next (Add to Custom App) keep it as default --> Save.

Workforce Administration Solution

Milestone – 4

The Lightning App

Activity 1: Create a Lightning App

To create a lightning app page:

1. Go to setup page --> search "app manager" in quick find --> select "app manager" --> click on New lightning App.

2. Fill the app name in app details and branding as follow
App Name : Workforce Administrator Solution
Developer Name : this will auto populated
Description : Give a meaningful description
Image : optional (if you want to give any image you can otherwise not mandatory)
Primary color hex value : keep this default
3. Then click Next --> (App option page) keep it as default --> Next --> (Utility Items) keep it as default --> Next.

Workforce Administration Solution

5. To Add User Profiles:

Workforce Administration Solution

Search profiles (System administrator) in the search bar --> click on the arrow button --> save & finish.

Workforce Administration Solution

Milestone – 5

Fields & Relationships

Activity 1 : Creating Text Field in Employee Object

To create fields in an object:

1. Go to setup --> click on Object Manager --> type object name(Employee) in quick find bar --> click on the object.

2. Now click on "Fields & Relationships" --> New

3. Select Data type as "Text".

Workforce Administration Solution

☐ Picklist	Allows users to select a value from a list you define.
☐ Picklist (Multi-Select)	Allows users to select multiple values from a list you define.
☒ Text	Allows users to enter any combination of letters and numbers.
☐ Text Area	Allows users to enter up to 255 characters on separate lines.
☐ Text Area (Long)	Allows users to enter up to 131,072 characters on separate lines.

4. Click on Next

Field Name ⓘ

Description

5. Fill the above as following:
- 1) Field Label: Employee Name
 - 2) Length : 18
 - 3) Field Name : gets auto generated
 - 4) Click on Next --> Next --> Save and new.

Activity 2 : Creating Date of Birth Field in Employee Object

1. Repeat step 1 and 2 mentioned in activity 1
2. Select Data type as "Date" and click Next.

Workforce Administration Solution

☐ Checkbox	Allows users to select a True (checked) or False (unchecked) value.
☐ Currency	Allows users to enter a dollar or other currency amount and automatically formats the field as a currency amount. This can be useful if you export data to Excel or another spreadsheet.
☐ Date	Allows users to enter a date or pick a date from a popup calendar.
☐ Date/Time	Allows users to enter a date and time, or pick a date from a popup calendar. When users click a date in the pop-up, that date and the current time are entered into the Date/Time field.
☐ Email	Allows users to enter an email address, which is validated to ensure proper format. If this field is specified for a contact or lead, users can choose the address when clicking Send an Email. Note that custom email addresses cannot be used for mass

3. Click on Next.

4. Fill the above as following:

- Field Label: Date of Birth.
- Field Name : gets auto generated.
- Click on Next --> Next --> Save and new.

Activity 3 : Creating Formula Field in Employee Object

- Repeat step 1 and 2 mentioned in activity 1
- Select Data type as "Formula" and click Next.
- Give Field Label and Field Name as "Age" and select formula return type as "Number" and click next.

Step 2. Choose output type Step 2 of 5

Previous **Next**

Field Label **Age** Field Name **Age**

Auto add to custom report type ☒ Add this field to existing custom report types that contain this entity

Formula Return Type

☐ None Selected Select one of the data types below.

☐ Checkbox Calculate a boolean value.
Example: `TODAY() > CloseDate`

☐ Currency Calculate a dollar or other currency amount and automatically format the field as a currency amount.
Example: `Gross Margin = Amount - Cost__c`

☐ Date Calculate a date, for example, by adding or subtracting days to other dates.
Example: `Reminder Date = CloseDate - 7`

☐ Date/Time Calculate a date/time, for example, by adding a number of hours or days to another date/time.
Example: `Next = NOW() + 1`

☒ Number Calculate a numeric value.
Example: `Fahrenheit = 1.8 * Celsius__c + 32`

Workforce Administration Solution

3. Under Advanced Formula write down the formula and click "Check Syntax" and Next --> Next --> Save & New.

The screenshot shows the 'Step 3. Enter formula' window. The 'Advanced Formula' tab is selected. The formula entered is `YEAR( TODAY() ) - YEAR( Date_of_Birth__c )`. The 'Check Syntax' button is highlighted, and a message below it states: 'No syntax errors in merge fields or functions. (Compiled size: 71 characters)'. The 'Next' button is also highlighted. A 'Functions' list on the right includes ABS, ACOS, ADDMONTHS, AND, ASCII, and ASIN. A 'Quick Tips' section on the right lists 'Getting Started' and 'Operators & Functions'.

Activity 4 : Creating Picklist Field in Employee Object

1. Repeat step 1 and 2 mentioned in activity 1
2. Select Data type as "Picklist" and click Next.
3. Enter Field Label as "Gender", under values select "Enter values, with each value separated by a new line" and enter values as shown below.

The screenshot shows the 'Step 2. Enter the details' window. The 'Field Label' is 'Gender'. Under 'Values', the option 'Enter values, with each value separated by a new line' is selected. The values entered are 'Male' and 'Female'. The 'Field Name' is also 'Gender'. The 'Restrict picklist to the values defined in the value set' checkbox is checked. The 'Next' button is highlighted.

Workforce Administration Solution

4. Click Next --> Next --> Next --> Save & New.

Activity 5 : Creating Self-Relationship Field in Employee Object

1. . Repeat step 1 and 2 mentioned in activity 1
2. Select Data type as "Lookup Relationship" and click Next.
3. Select Employee from the drop down related to the field and click Next.

Employee New Relationship

Step 2. Choose the related object

Select the other object to which this object is related.

Related To: Employee

Previous Next Cancel

4. Give Field Label as "Reports to" and click Next.
5. Next --> Next --> Save & New.

Activity 6 :Creating Master-Detail Relationship between Employee & Asset Object

To Create a Master-Detail relationship

1. Go to the setup page --> click on object manager --> type object name (ProjectTask) in the quick find bar --> click on the object.
2. Click on fields & relationship --> click on New.
3. Select "Master-Detail relationship" as data type and click Next.
4. For field label related to: select "Employee" object and click Next.
5. Give Field Label as "Employee Name" and click Next.
6. Next --> Next --> Save & New.

Workforce Administration Solution

Activity 7 : Creating Remaining Fields in Employee Object

Now create the remaining fields using the data types mentioned in the table.

S.No.	Object Name	Field		
		S.No.	Field Name	Data Type
1	Employee	1	Qualification	Text
		2	Address	Text Area
		3	Experience	Text Area
		4	Phone No	Phone

6. This Setting is for all the Users Which have been Created.

Activity 2:

Set OWD as Private for Project and Asset Service objects.

1. Go to Set Up --> in the Quick Find box type "Sharing Settings" --> click on it.
2. Click Edit in the Organization-Wide Defaults area.
3. Search for the project object.
4. Under default internal access and default external access change the options to "Private" and under grant access using hierarchies select the check box.
5. Click on save.

Next step

1. Go to Set Up --> in the Quick Find box type "Sharing Settings" --> click on it.
2. Click Edit in the Organization-Wide Defaults area.
3. Search for the Asset service object.
4. Under default internal access and default external access change the options to "Private" and under grant access using hierarchies select the check box.
5. Click on save.

Workforce Administration Solution

Milestone – 7

User Adoption

Activity 1: Create a Record (Employee)

1. Click on App Launcher on the left side of the screen.
2. Search Employee Management System & click on it.

3. Click on the Employee tab.
4. Click New.

Workforce Administration Solution

5. Fill the Details and click on Save.

Activity 2: View a Record (Employee)

1. Click on App Launcher on the left side of the screen.
2. Search Employee Management System & click on it.
3. Click on the Employee Tab.
4. Click on any record name. you can see the details of the Employee

Activity 3: Delete a Record (Employee)

1. Click on App Launcher on the left side of the screen.
2. Search Employee Management System & click on it.
3. Click on the Employee Tab.
4. Click on Arrow at right hand side on that Particular record.
5. Click delete.

Workforce Administration Solution

Milestone – 8

Import data

Activity-1: Importing data using Data Wizard

1. From Setup, click the Home tab.
2. In the Quick Find box, enter Data Import and select Data Import Wizard.

3. Click Launch Wizard!

4. Click the Custom Objects tab and select the Employee object.

Workforce Administration Solution

5. Select Add new records.

6. Click CSV and choose file Employee_CSV which we made earlier. Click Next.

Activity 2: Creating more roles

Create three more roles for Manager, On Site Employee, Remote Employee.

Note: On Site Employee and Remote Employee reports to Manager.

1. Go to quick find --> Search for Roles --> click on set up roles
2. Click on Expand All and click on add role under whom this role works.
3. Give Label as "Manager" and Role name gets auto populated. Check to whom this role (HR) reports. Then click on Save.
4. Refer the below diagram to understand which role reports to which role.

Next Role

1. Go to quick find --> Search for Roles --> click on set up roles
2. Click on Expand All and click on add role under whom this role works.
3. Give Label as "On Site Employee" and Role name gets auto populated. Check to whom this role (HR) reports. Then click on Save.
4. Refer the below diagram to understand which role reports to which role.

Next Role

1. Go to quick find --> Search for Roles --> click on set up roles
2. Click on Expand All and click on add role under whom this role works.
3. Give Label as "Remote Employee" and Role name gets auto populated. Check to whom this role (HR) reports. Then click on Save.
4. Refer the below diagram to understand which role reports to which role.

Workforce Administration Solution

Milestone – 11

Users

Activity 1: Create User

1. Go to setup --> type users in quick find box --> select users --> click New user.
2. Fill in the fields

1. First Name : Niklaus
2. Last Name : Mikaelson
3. Alias : Give a Alias Name
4. Email id : Give your Personal Email id
5. Username : Username should be in this form: text@text.text
6. Nick Name : Give a Nickname
7. Role : HR
8. User license: Salesforce
9. Profiles : HR

The screenshot shows the 'New User' setup page in Salesforce. The 'General Information' section is highlighted with a red box, showing fields for First Name (Niklaus), Last Name (Mikaelson), Alias (nmika), Email, Username (nlarkin@MNwhite.com), and Nickname (Niklaus). The 'Role' section is also highlighted with a red box, showing a dropdown for Role (HR), a dropdown for User License (Salesforce), and a dropdown for Profile (HR). The 'Active' checkbox is checked. The 'Marketing User', 'Offline User', 'Knowledge User', 'Flow User', 'Service Cloud User', 'Site.com Contributor User', 'Site.com Publisher User', and 'WDC User' checkboxes are unchecked. The 'Data.com User Type' dropdown is set to '--None--'. The 'Data.com Monthly Addition Limit' dropdown is set to 'Default Limit (300)'. The 'Accessibility Mode (Classic Only)', 'High-Contrast Palette on Charts', 'Load Lightning Pages While Scrolling', and 'Debug Mode' checkboxes are unchecked.

Activity 2: Creating another user

1. Go to setup --> type users in quick find box --> select users --> click New user.
2. Fill in the fields
 - 1) First Name : Kol
 - 2) Last Name : Mikaelson
 - 3) Alias : Give a Alias Name
 - 4) Email id : Give your Personal Email id
 - 5) Username : Username should be in this form: text@text.text
 - 6) Nick Name : Give a Nickname
 - 7) Role : Manager
 - 8) User license : Salesforce Platform
 - 9) Profiles : Manager
3. Save.

Activity 3: Creating more users

Create two more users as we created in activity 2.

1. Go to setup --> type users in quick find box --> select users --> click New user.
2. Fill in the fields
 - 1) First Name : Kole
 - 2) Last Name : nicklson
 - 3) Alias : Give a Alias Name
 - 4) Email id : Give your Personal Email id
 - 5) Username : Username should be in this form: text@text.text
 - 6) Nick Name : Give a Nickname
 - 7) Role : Manager
 - 8) User license : Salesforce Platform
 - 9) Profiles : Manager
3. Save.

Next User

1. Go to setup --> type users in quick find box --> select users --> click New user.

Workforce Administration Solution

2. Fill in the fields

- 1) First Name : lol
- 2) Last Name : Rickelton
- 3) Alias : Give a Alias Name
- 4) Email id : Give your Personal Email id
- 5) Username : Username should be in this form: text@text.text
- 6) Nick Name : Give a Nickname
- 7) Role : Manager
- 8) User license : Salesforce Platform
- 9) Profiles : Manager

3. Save.

Milestone – 13 Chatter Group

Activity 1 : Creating a chatter group for your organization.

To Create a chatter group:

1. Click the App Launcher.
2. Enter Groups in the Search apps and items... box and select Groups.

3. Click New.

4. Fill in the new group information with these details:

Workforce Administration Solution

Field	Value
1. Group Name	Internal Discussion
2. Description	Give a understanding Description on your own
3. Access Type	Private
4. Allow Customers	Checked

The screenshot shows the 'New Group' dialog box in the Salesforce Chatter interface. The dialog has a title bar 'New Group'. It contains three main sections: 'Name', 'Description', and 'Information'. The 'Name' field is a text input with 'Internal Discussion' entered. The 'Description' field is a text area with the text 'This is created on the request of COO of the organization, for teams and users to have an internal discussion among them and have a clear idea about the on going activities.' The 'Information' section includes a font dropdown set to 'Salesforce Sans', a size dropdown set to '12', and a rich text editor with various formatting icons. At the bottom of the dialog, there are two buttons: 'Cancel' and 'Save & Next'. The 'Save & Next' button is highlighted with a blue border.

5. Click Save & Next. Skip the Upload Picture section and click Next.

Workforce Administration Solution

6. On the Manage Members screen, click Add next to users you created in the previous activity.

Workforce Administration Solution

7. Click Done.

8. This is how your group interface looks like.

9. Where it says Share an update, post this message to the group: Welcome to the Internal Discussion Group, here you can post anything which is related to ongoing projects.

10. Click Share.

Note: You can like or comment on this post.

Note: there is a default chatter group in the org with all the active users in it, this activity is to show you how to create a chatter group and add users into it.

Milestone – 16 Dashboards

Activity 1: Create Dashboard

To Create a Dashboard

1. Go to the app --> click on the Dashboards tabs.

- a. Give a Name and click on create

A screenshot of the 'New Dashboard' form. The form has a title 'New Dashboard' at the top. Below the title, there are three main sections: 'Name', 'Description', and 'Folder'. The 'Name' section has a text input field with the value 'Dashboard 1'. The 'Description' section has a text input field. The 'Folder' section has a dropdown menu with the value 'Private Dashboards' and a 'Select Folder' button. At the bottom right of the form, there are two buttons: 'Cancel' and 'Create'. The 'Create' button is highlighted with a red box.

- b. Select add component.

Workforce Administration Solution

c. Select a Report and click on select.

d. Click Add then click on Save and then click on Done.

Activity 2:

Create another Dashboard as we discussed in activity 1.

To Create a Dashboard 2

1. Go to the app --> click on the Dashboards tabs.
 - a. Give a Name and click on create
 - b. Select add component.
 - c. Select a Report and click on select.
 - d. Click Add then click on Save and then click on Done.

Workforce Administration Solution

Milestone – 17 Approval Process

Activity 1

Prerequisites:

Create the leave object with the following fields.

Object	Fields	Datatype
Leave	Employee Name	Lookup with Employee object Number
	No. of Days	Text
	Subject	Text Area(Rich)
	Description	Picklist: values as follows
	Status	Submitted Approved Rejected
		Note: Make sure the Status field is read only for everyone. (Give read only permission in step 3 while creating the field)

Create the tab for the leave object.

Activity 2

Create an Approval Process for Leave object.

1. Go to Setup --> type Approval Processes in quick find --> click on Approval Processes.

Workforce Administration Solution

2. In the Manage Approval Processes For list, select Leave.
3. Click Create New Approval Process and select Use Jump Start Wizard.

- 4 . Enter the following parameters

Parameter	Value
Name	Leave Approval Request
Unique Name	Leave_Approval_Request(This automatically gets sent when you tab out of the Name field)

Workforce Administration Solution

Approval Assignment Email Template	Leave blank
Add the Submit for Approval button and Approval History related list to all Travel Approval page layouts	Leave this selected/checked
Use Approver Field of Leave Owner	Leave unselected/unchecked.
Select Approver	select Automatically assign to approver(s) and for users select the name of the user with the Manager role.

5. Click Save.
6. Click View Approval Process Detail Page.

Activity 3

Initial Submission Action:

1. Under initial submission action click on add new and then select field update.

2. Give name as "Approval Status to Submitted".
 Select Status for the field to update.
 Under specify new field value select "A specific value" and select submitted and click Save.

Workforce Administration Solution

Edit Field Update
Approval Status to Submitted

Define the field update, including the object associated with the workflow rule, approval process, or entitlement process, the field to update. Fields are shown only for the type that you select.

Activity 5

Final Approval Action:

- a. Under initial submission action click on add new and then select field update.

- b. Give name as "Approval Status to Approved".
Select Status for the field to update.
Under specify new field value select "A specific value" and select Approved and click Save.

Workforce Administration Solution

Activity 6

Final Rejection Action:

1. Under initial submission action click on add new and then select field update.

The screenshot shows the 'Field Updates' setup page. The title is 'Approval Status to Approved'. Below the title, there is a description: 'Define the field update, including the object associated with the workflow rule, approval process, or entitlement process, the field to update, and the value to apply. Note that the field to update may be on a related object. Fields are shown only for the type that you select.' The page is divided into two main sections: 'Field Update Edit' and 'Specify New Field Value'. In the 'Field Update Edit' section, the 'Name' field is 'Approval Status to Approve', the 'Unique Name' is 'Approval_Status_to_Approved', and the 'Field to Update' is 'Status'. In the 'Specify New Field Value' section, the 'Picklist Options' are 'The value above the current one', 'The value below the current one', and 'A specific value'. The 'A specific value' option is selected, and the value 'Approved' is entered in the adjacent dropdown menu. The 'Save' button is highlighted with a red box.

2. Give name as "Approval Status to Rejected".

Select Status for the field to update. Under specify new field value select "A specific value" and select Rejected and click Save.

Define the field update, including the object associated with the workflow rule, approval process, or entitlement process, the field to update, and the value to apply. Fields are shown only for the type that you select.

The screenshot shows the 'Field Update Edit' page. The title is 'Approval Status to Rejected'. Below the title, there is a description: 'Define the field update, including the object associated with the workflow rule, approval process, or entitlement process, the field to update, and the value to apply. Fields are shown only for the type that you select.' The page is divided into two main sections: 'Field Update Edit' and 'Specify New Field Value'. In the 'Field Update Edit' section, the 'Name' field is 'Approval Status to Rejected', the 'Unique Name' is 'Approval_Status_to_Rejected', and the 'Field to Update' is 'Status'. In the 'Specify New Field Value' section, the 'Picklist Options' are 'The value above the current one', 'The value below the current one', and 'A specific value'. The 'A specific value' option is selected, and the value 'Rejected' is entered in the adjacent dropdown menu. The 'Save' button is highlighted with a red box.

Workforce Administration Solution

Milestone – 18

Apex Trigger

Activity 1 : Create an Apex Trigger

Create an Apex Trigger

1. To create a new Apex Class follow the below steps:
Click on the file --> New --> Apex Class.

2. Give the Apex Trigger name as "EmpInsert", and select "Employee__c" from the dropdown for sObject.

Workforce Administration Solution

New Apex Trigger

Name: EmpInsert

sObject: Employee__c

Submit

3. Click Submit.
4. Now write the code logic here

```
1 trigger EmpInsert on Employee__c (before insert) {
2   for(Employee__c pass : Trigger.New){
3     List<Employee__c> mynew = [SELECT Id, Name FROM Employee__c WHERE Employee_Name__c =: pass.Employee_Name__c];
4     if(mynew.size() > 0){
5       pass.Name.addError('Employee with same name is existing');
6     }
7   }
8 }
```

Code Snippet:

```
trigger EmpInsert on Employee__c (before insert) {
    for(Employee__c pass : Trigger.New){
        List<Employee__c> mynew = [SELECT Id, Name FROM Employee__c WHERE
Employee_Name__c =: pass.Employee_Name__c];
        if(mynew.size() > 0){
```

Workforce Administration Solution

```
pass.Name.addError('Employee with same name is existing');  
}  
}  
}
```

2. Save the code.(click on file --> Save)

Activity 2 : Testing the Trigger

Follow the steps which are mentioned in Milestone 7, Activity 1 and try to create a record with the existing Employee Name say "Jackie Chan" you'll face the error while saving the record saying "Employee with same name is existing".

The screenshot displays the 'New Employee: On Site Employee' form. The 'Employee Name' field, containing 'Jackie Chan', is highlighted in yellow. A red error message box is overlaid on the form, stating 'We hit a snag.' and 'Review the errors on this page.' with a list of errors: 'Employee with same name is existing'. Below this, it says 'Review the following fields' and lists 'Employee ID' with a link to view details. The form includes fields for Employee ID, Owner (demo project), Reports to, Gender (set to --None--), Qualification, Experience, Phone no, Email, Mode of Work (set to None--), Joining date, Time, LinkedIn Profile, and Out Time. At the bottom, there are buttons for 'Cancel', 'Save & New', and 'Save', along with a 'Leave Days' field.
